10 year old video, REALLY lays it all out. It's a little sophisticated but they murdered her for figuring out all their tricks and techniques

Just remember, the secrecy that surrounds these people is a wall 10 miles thick, when someone figures out their play books, that person doesn't have long, we need an intelligent population to recognize what is going on.

And now with this attack on farmers, and this development craze, she was really 10 years ahead of her time, she is the harry vox of the urban land planning conspiracy.

this is what they did way back during early Soviet Union, they wanted to control agriculture, they wanted to bring all the people into the cities where they could be yoked and enslaved.

in 1800, 90% of population was independent small farmers, they grew their own food, they didn't have 'jobs', what good does that do them? you get it?

Independence=freedom=useless free people

Sterilize their cries, so the others can't hear. Saved by their ignorance. Til their ignorance becomes atrocity. gtkthg

look at 17:00. she holds up the Agenda 21 symbol, which is a '666' symbol of course, these the plans for city development all across the US, and the world, but not only city development.

this links up with these burdensome regulations on farmers in france, netherlands, and soon everywhere. it's to put farmers out of business. it's to have even more total control over who gets housing and who doesn't.

all they need to do is deny you housing and every sociopathic needle lover will suddenly hate you , instead of helping you , they hate you, everyone is so insane and evil

Sterilize their cries, so the others can't hear. Saved by their ignorance. Til their ignorance becomes atrocity. gtkthg

she is very articulate and describes the social engineering by the deep state very well,

the biggest secret is that the military controlled by the deep state has declared the general public enemy combatant to be eliminated by vaxxines and other poisons,

and transhumanism the survivors by genetic engineering,

all they needed to do was put agents made from [snake](#) venom in the u.s. drinking [water](#) to get the scamdemic started,

then they used the WHO to force other nations to use the PCR test and get fake numbers of deaths and [infection](#).

This is capitalism though. The die hard free market types will say you can't stand in the way of "competition" ... if you don't have protectionism to prevent wealth from concentrating it will do so naturally as a result of simple laws of nature.

Nobody forced these farmers to sell their land and equipment.. the kids didn't want to farm, they wanted to go to the big cities... so they sold.

Now highly liquid investors, investment firms, REITS, and foreigners are buying our housing to turn into rentals, AIRBNBs, etc. We allow it to happen because our politicians don't want to do anything about it.

I know there are posters here who probably own multiple houses and rent them out. Sorry to say, you are part of the problem. Nobody should own more than 3 houses, and no corporation or trust should be allowed to contain single family real estate. I get it, you guys bought the houses, took the risk, and now you rent them out and get passive income. The problem is we have priced housing out of the Gen Z's ability to afford it, and birth rates are going to get much worse than they already are.

The elites definitely want the bottom 90% living in small [apartment](#) units. It's more profitable for the developers and it doesn't help they incentivize it with government handouts. If they at least built them with decent soundproofing it wouldn't be AS bad, but they don't. Their goal of people owning nothing and being happy will fail miserably. There is no incentive for people to want to maintain their properties if they are owned by somebody else. There's no incentive for people to better themselves either if they can't own their own home. Eventually the guys who own 5 or 20 homes will sell them all to a single investment firm, and the super large corporations will own all the houses. Nobody is doing anything to stop it.

only reason this got pinned is because she's got alot of it down, but she's really not getting the most important part.

the goal is NOT to take private land and make it public land.

the goal is to make it all THEIR private land, there IS NO FUCKING PUBLIC LAND, there is not ONE SQUARE FUCKING INCH of public land anywhere near a place you could work, because that's the whole idea, that you have to pay for a place to sleep and live, if you could live for free and actually be free , well, that ruins EVERYTHING they had planned for you!! they had a nice little plan to make you pay them rent on money, interest so they can live their best lives at your expense

This is capitalism though. The die hard free market types will say you can't stand in the way of "competition" ... if you don't have protectionism to prevent wealth from concentrating it will do so naturally as a result of simple laws of nature.

Quoting: Sholomar

It does this under ANY system.. and its MOSTLY because people age. Did you know a person who had 40 years to save has more money than the person who had 2 years? Most of what leftists call "wealth inequality" is generational inequality.

Very few families hang on to fortunes for more than a generation or two, because the person who knew how to generate wealth died and those left after him never bothered to learn .

Under Capitalism wealth goes to those who are competent
 Under Collectivism it goes to those with political pull.

Human skills are distributed on a pareto distribution. Hence those with the most ability to generate wealth make up a minority. If you decide to steal from them - they stop producing and everyone suffers.

Stop collectivists form hoaving power and everyone gains

Capitalism isn't perfect but it sucks the least. Stop trying to justify theft .
